

QUALIFICATION DESCRIPTION

This qualification provides a trade outcome in wall and floor tiling for residential and commercial construction work. The qualification has core unit of competency requirements that cover common skills for the construction industry, as well as the specialist field of work, wall, and floor tiling. Tilers work with materials like ceramic, glass, slate, marble, and clay. They cut these materials and lay tiles on walls and floors, both interior and exterior. They may also add decorative touches to their basic work.

State and territory jurisdictions may have different licensing, legislative, regulatory or certification requirements. Relevant state and territory regulatory authorities should be consulted to confirm those requirements.

JOB ROLES

- 1) Tiler
- 2) Wall and Floor tiler

REQUIREMENTS

To be awarded this qualification, competency must be demonstrated in

- Total number of units = 20 (17core units | 3 elective units)

REQUIREMENTS

To be awarded this qualification, competency must be demonstrated in

- Total number of units = 20 (17core units | 3 elective units)
